Technical specifications 254-267

The Faucets and Accessories PRO catalogue was prepared so that you, as our stakeholders and professional partners, can complete your product selection process with ease.

Based on your work schedules and practice and usage patterns, you can use the method that suits you in making use of this catalogue. You can find the products, complementary and all other compatible products from the compatibility tables.

With the Faucets and Accessories PRO catalogue, it is now simpler to select products quickly and easily, match products from the different series and collections as well as design your bathroom interiors and obtain information on the technical specifications. You can determine your search criteria totally according to your own preferences and needs. To find the products that are most suitable for your projects can be accomplished by just scanning the icons.

In order to make your decision making process easier, we have revised our icons. At first glance, you will notice information on whether your preferred products have energy and water savings features, information on materials used and their technical specifications.

We recommend that you take a look at the icon guide before you start reviewing the catalogue.

Visit the professional users section at our website **vitra.com.tr** where you will find all the information found in the Faucets and Accessories PRO catalogue as well as more detailed data.

Product Information

The aerator at the tip of the faucet not only permits less usage of water, but allows for extra flow while conserving water and inhibiting the formation of bacteria.

All of VitrA's single lever handle faucets are equipped with a special ceramic cartridge. With just a soft touch, the flow and temperature of the water can easily be regulated, ensuring users gratifying comforts of VitrA products for many years to come.

Like all of VitrA's products, the VitrA faucet hand wheels are exclusively designed. They are not only practical to use, but are also eye-catching. The VitrA hand wheels opening and closing mechanism is not only stylish, but also ergonomic at the same time.

The 360° rotating joystick ensures practical use.

By steering the joystick on the washbasin and bidet mixers, the syphon directs the water flow of the washbasin and bidet.

The VitrA bathtub and shower mixers are equipped with a locking system thereby the hand shower is not affected from water pressure surges.

The infrared sensor affixed to the body of the mixer, senses the user's presence from a distance of 0-250 mm and turns on the water. Hence, with the support of photocell technology, water saving is ensured.

The thermostatic mixers are equipped with special cartridges which prevent hot and cold water pressure surges due to plumbing problems and ensure that water flow is at a constant temperature. If the flow of cold water is interrupted from the drainage system, hot water flow is blocked, eliminating the risk of scolding. As a result of this feature, safety for the elderly and children are achieved in these special bathrooms.

By moving the ring located on the shower and hand shower to the right and left, 6 functions to regulate water flow is possible. The exclusively designed water aperture has a self-cleaning feature that prevents lime and residue buildup.

The spiral hand shower can be used in a normal fashion or as a water jet to control the water flow. Moreover, the user-friendly hand shower has a range up to 1 m with its expandable hose.

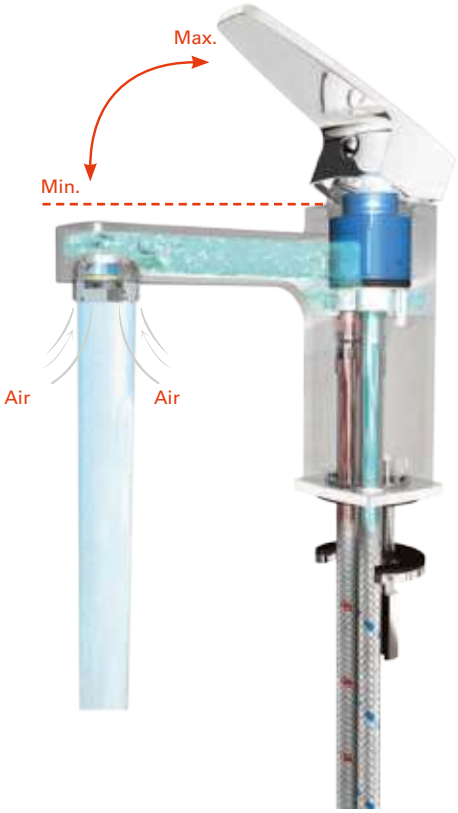
Temperature and flow regulator cartridge

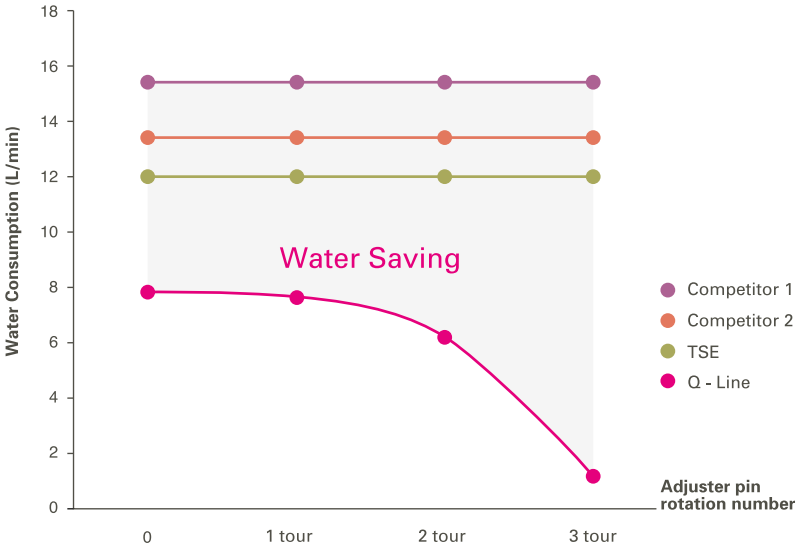
Maximum energy saving

The red ring on the cartridge sets the maximum temperature of the water. As a result, water is conserved by preventing the excessi usage of hot water. To avoid scalding, the highly reliable cartridge prevents sudden bursts of hot water.

Maximum water saving

Faucets equipped with the special cartridge can also regulate the water flow. Water flow with 3-bar pressure is 20 L/minute with normal cartridges. Under the same conditions, the special temperature and flow regulator cartridge can limit the flow to 2 L/minute – resulting in up to 90% savings on water consumption.

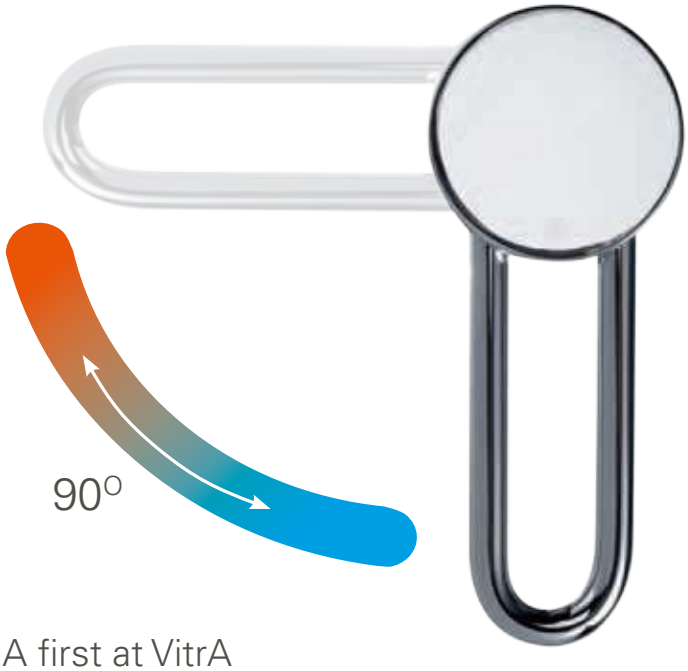




Rotation Number	TSE Standats	Q-Line	Competitor 2	Competitor 1	Water Saving
0	12 L/min	7,8 L/min	13,4 L/min	15,4 L/min	%50
1 Tour	12 L/min	7,6 L/min	13,4 L/min	15,4 L/min	%51
2 Tour	12 L/min	6,2 L/min	13,4 L/min	15,4 L/min	%60
3 Tour	12 L/min	1,2 L/min	13,4 L/min	15,4 L/min	%93

Water pressure is taken as 3 bar.
Competitor 1 is taken as reference while calculating water saving.

90° cartridge



A first at VitrA

Part of the C-Line series, the 90° left-side rotating cartridge conserves energy by ensuring that the combi boiler is not activated when the faucet is turned on in the center position. Also in the series is the temperature and flow regulator cartridge that can be adjusted to the desired hot water temperature to avoid unnecessary use of energy. The flow regulator on the special cartridge limits the flow of water even when the temperature is at its highest, thereby conserving water consumption up to 90%. In short, the C-Line series include products that are both energy and water friendly.

Thermostatic cartridge

As a result of the technical features of the thermostatic cartridge, hot and cold water can be mixed at a pre-determined level. This feature ensures that the temperature and flow of water can be set at the desired level and expended with confidence. The factory temperature calibration is 38° which complies with EU standards.

Features of the aerator

Self-cleaning aerator

- Residue and particles up to 0.7 mm are automatically discarded and will not clog the system even with long period of usage.
- It is not necessary to detach the aerator to clean out impurities.
- Ensures steady and smooth flow even in hard conditions.

Features of the flow regulator

- A new water conservation technology from VitrA that can be implemented with cache (concealed), cascade, and honeycomb air jet +/-7° swivel aerators.
- Compared to water flow of 12 L/minute with normal aerators at 3 bar, the special aerator with flow regulator limits water consumption to a minimum of 7,5 L /minute and maximum 9 L/minute.
- Compared to a regular aerator, approximately water is conserved up to roughly 40%.
- Can be used with washbasin, bidet and sink mixers.

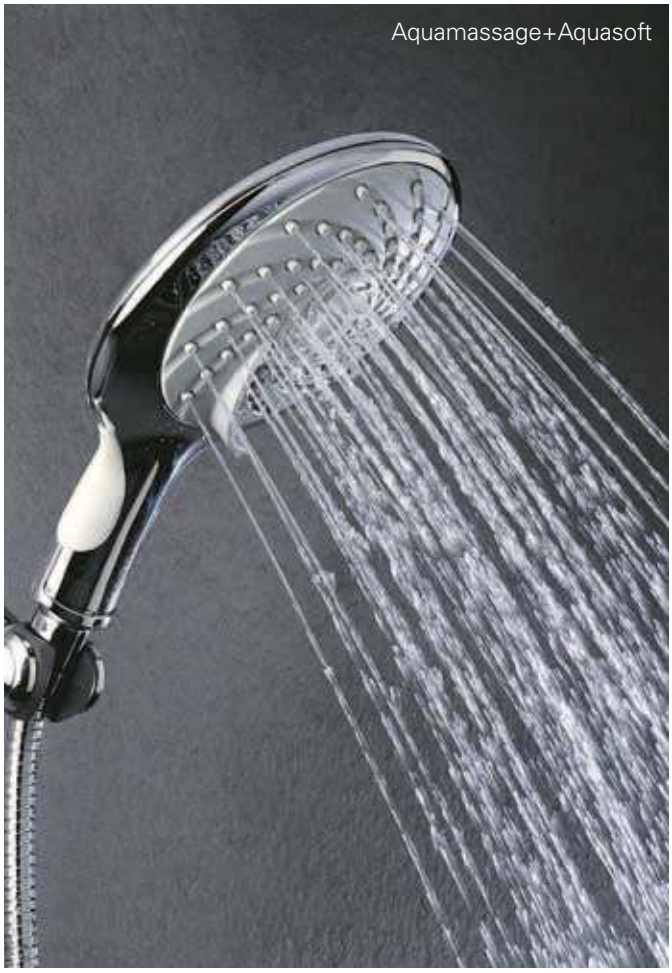
Water flow regulator

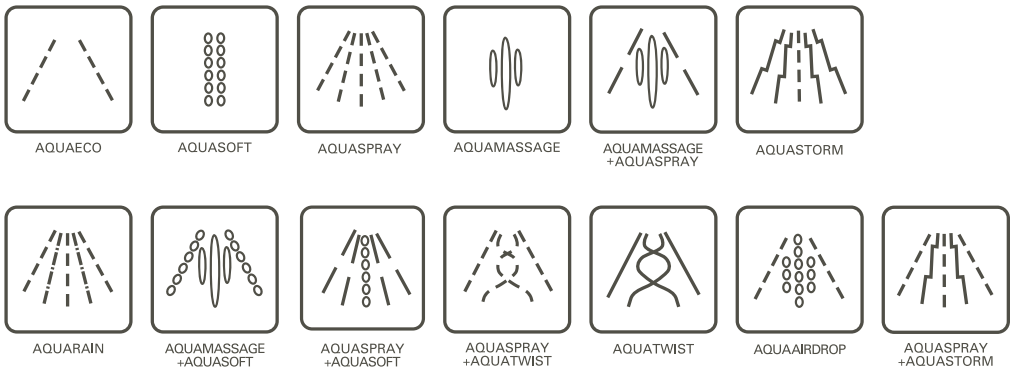
- Ensures flow at +/-7° with a light touch
- As a result of the flow regulator feature, faucets are compatible with a variety of large and small washbasins.
- Water is mixed with air to ensure a smooth flow of water
- Contributes to water conservation
- Prevents water splashing
- Prevents clogs due to lime buildup
- Can be used with the D-Line washbasin mixers, sink mixer and Q-Line washbasin mixers.

SST (Surround Sensitive Technology)

- Can detect the changes of an individual's electro-magnetic field to work.
- Hygienic
- Handsfree use
- Practical
- Easy installation
- Range of sensitivity is 0-22 mm
- Water conservation

Shower functions





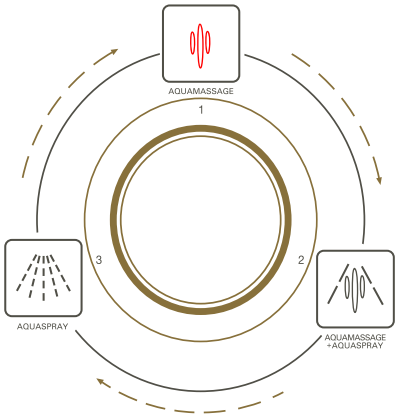
Technology that controls water

You can add more pleasure to your shower experiences by selecting one of the different flow alternatives offered to you by VitrA's handshowers.

Flow diagram

When you look at the back of the handshower you will notice the flow alternatives available.

Samba 5F
Handshower



Always clean

The "Easy Cleaning" feature found in the hand shower and showerhead ensures that lime and other impurities that accumulate in the water ducts are easily cleaned. The secret behind this feature, extending the life of your shower system, is the special silicone-rubber "water injectors" located in the middle of the device.

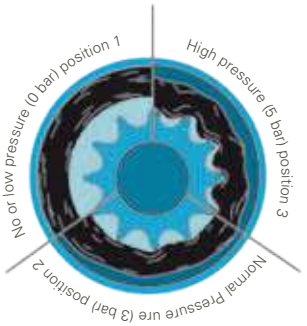
NO CALC

A design that stakes its claim on water

The flow regulator used in Istanbul, Samba 5F and Samba 3F shower systems limits the flow of water of hand showers from the average 20 L/minute to 7-8.5 L/minute, conserving water up to 60%.

Flow regulators are used to maintain a defined flow rate regardless of pressure variations of the supply line. Flow regulators consist of a dynamic elastomer, an engineered circular seating area (core) and a body (housing) in selected models. The gap between the core and the elastomer is open to passage for the water flow. The core openings can be on the inside of the elastomer or on the outside of the elastomer.

Working principle

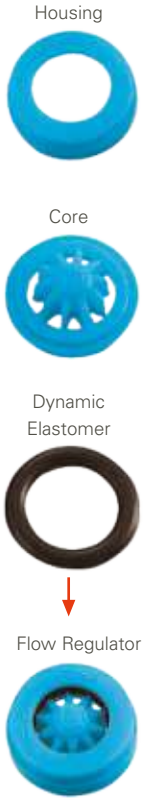


Static conditions
(no flow, or low pressure)
The elastomer is relaxed (position 1).

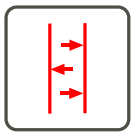
Dynamic conditions (flow)
The elastomer subjected to the line pressure is compressed into the seating area which reduces the water passage (position 2).

As the pressure increases the elastomer is compressed further into the seating area and reduces the water passage further (position 3).

As the pressure decreases the elastomer relaxes and reopens the water passage (return to position 2 and 1).



Pleasant shower experience



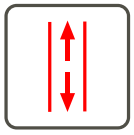
LEAKPROOF

The VitrA hoses are tested and verified at under 3 bar pressure levels to prevent water leaks.

ANTITWIST

The hand shower hose have a “antitwist” feature so the hose does twist up.

Chromalux
Spiral



EXTRA RESISTANT

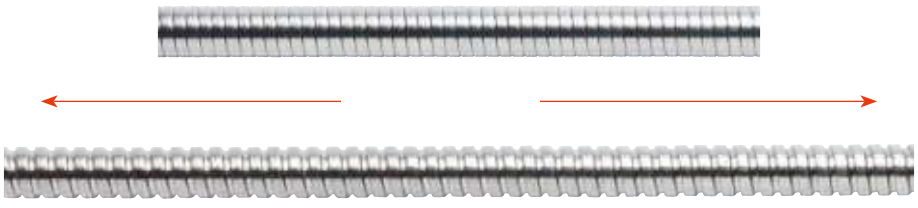
VitrA spiral hoses are highly resistant to yanking. Tested to withstand pulling strain as high as 500 N, these hoses will never split and ruin the pleasure of your shower.

Flexi Spiral

For a long and soothing shower experience

Taking a shower is now more soothing and relaxing with VitrA's new shower hoses.

- They can be used with the Sense, Rain L, Cozy 5F, Samba 3F and Harmony 5F handshowers.
- The new extendable shower hoses are practical and easy to use.
- The handshower can be extended to longer distances for practical use.
- It has a more homogenous appearance compared to other shower hoses.
- The shower hose can be extended up to 2,250 mm.
- The hose's natural length is 1,750 mm.



Blue Life

For our blue planet...

A pledge to the future.

Key data in diverse fields indicate the world could be at a critical juncture in terms of sustainability. The future of our blue planet is at stake, and as a major producer in the consumer goods sector with a global audience, VitrA is strongly aware of its responsibilities. Conservation of natural resources has long been a basic principle of the brand. Blue Life is set of guidelines embraced by VitrA to protect and preserve the living world. VitrA upholds Blue Life as a production, design and management philosophy.

Production Certificates

The technology “set” by perceptions: AquaFeel

The washbasin mixers with Electronic SST (Surround Sensitive Technology) can detect the electromagnetic changes of individuals and can be activated hands free resulting in water conservation of 50%.

A faucet that knows when to stop: AquaTouch

To prevent excessire water expenditure, the AquaTouch faucet operates with a pre-set flow timer activated with one touch.

A faucet that “sees” its user: AquaSee

The AquaSee photocell washbasin mixer has a special sensor that can detect the user, ensuring automatic activation of the flow of water. When used in public spaces, water is conserved up to 50%.

Thermostatic mixers

Thermostatic bath and shower mixers save users from having to adjust the temperature of the water before each use, avoiding excess use of water. The desired temperature can be pre-set, ensuring consistent and reliable use.

An aerator that changes the direction of water to conservation

VitrA’s “special flow regulator aerator” equipped washbasin, bidet and sink mixers ensures savings of up to 40% on water consumption. With this aerator, flow decreases to 7.5-9 L/minute instead of the average 12 L/minute.

Faucets and Accessories

Freedom by Covegrove.

Freedom by Lovegrove.

Inspired by the fluidity of water, Ross Lovegrove's Freedom series includes flawless and sculpturesque designs carrying nature's lifelines to the bathroom.

Built-in basin mixer (electronic controlled-with LED)

Code: A4705099EXP
Coating: White
Aerator: Cache aerator with flow restrictor provides max. 8 L/min. flow rate
Cartridge: Water flow and temperature adjustments are made through the handle (electronic controlled)
Compatible items: All Freedom washbasins (except 4408 Freedom washbasin)

Built-in basin mixer (electronic controlled-with LED)

Code: A4705299EXP
Coating: White
Aerator: Cache aerator with flow restrictor provides max. 8 L/min. flow rate
Cartridge: Water flow and temperature adjustments are made through the handle (electronic controlled)
Compatible items: 4408 Freedom washbasin

Built-in bidet mixer (electronic controlled-with LED)

Code: A4705199EXP
Coating: White
Aerator: Swivel cache aerator with flow restrictor provides max. 8 L/min. flow rate
Cartridge: Water flow and temperature adjustments are made through the handle (electronic controlled)

İstanbul by Lovegrove.

İstanbul by Lovegrove.

Carrying Lovegrove's signature, the flowing and organic forms have combined with VitrA's technology to create an integrated bathroom interior with the harmonious faucets and accessories in this series.

Built-in basin mixer

Code: A41808EXP
Coating: Chrome, Gold
Aerator: Cache aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 218

For gold coating and flow rate options, please refer to price list or vitra.com.tr

Built-in basin mixer

Code: A41882EXP
Coating: Chrome
Aerator: Cache aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 180

For flow rate option, please refer to price list or vitra.com.tr

Basin mixer (for 3-hole basins)

Code: A41807EXP
Coating: Chrome, Gold
Aerator: Cache aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 130
Spout height (mm): 80

For gold coating and flow rate options, please refer to price list or vitra.com.tr

Built-in bidet mixer

Code: A41883EXP
Coating: Chrome
Aerator: Swivel cache aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 232
Cartridge: Quarter turn ceramic disc cartridge

Bath/shower mixer

Code: A41813EXP
Coating: Chrome, Gold
Aerator: Cache
Spout length (mm): 225
Cartridge: Quarter turn ceramic disc cartridge

For gold coating option, please refer to price list or vitra.com.tr

Bath/shower mixer (floor mounted)

Code: A41811EXP
Coating: Chrome, Gold
Aerator: Cache
Spout length (mm): 225
Spout height (mm): 614
Cartridge: Quarter turn ceramic disc cartridge

For gold coating option, please refer to price list or vitra.com.tr

Built-in bath/shower mixer (3 way diverter, with handshower)

Code: A41809EXP
Coating: Chrome, Gold
Aerator: Cache
Spout length (mm): 135

For gold coating option, please refer to price list or vitra.com.tr

Built-in bath/shower mixer (with handshower)

Code: A41806EXP
Coating: Chrome, Gold
Aerator: Cache
Spout length (mm): 135

For gold coating option, please refer to price list or vitra.com.tr

Built-in bath/shower mixer

Code: A41821EXP
Coating: Chrome, Gold
Aerator: Cache
Spout length (mm): 135

For gold coating option, please refer to price list or vitra.com.tr

İstanbul by Lovegrove.

Built-in shower mixer (with handshower)

Code: A41812EXP
Coating: Chrome, Gold
Cartridge: Quarter turn ceramic disc cartridge

For gold coating option, please refer to price list or vitra.com.tr

Basin mixer with pop-up

Code: A41800EXP
Coating: Chrome, Gold
Aerator: Cache aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 130
Spout height (mm): 108

For basin mixer without pop-up, gold coating and flow rate options, please refer to price list or vitra.com.tr

Built-in basin mixer

Code: A41804EXP
Coating: Chrome, Gold
Aerator: Cache aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 220

For gold coating and flow rate options, please refer to price list or vitra.com.tr

Built-in basin mixer

Code: A41881EXP
Coating: Chrome
Aerator: Cache aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 180

For flow rate option, please refer to price list or vitra.com.tr

Bidet mixer with pop-up

Code: A41831EXP
Coating: Chrome, Gold
Aerator: Swivel cache aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 138
Spout height (mm): 96

For bidet mixer without pop-up and gold coating options, please refer to price list or vitra.com.tr

Bath/shower mixer (with handshower)

Code: A41802EXP
Coating: Chrome, Gold
Aerator: Cache
Spout length (mm): 209

For gold coating option, please refer to price list or vitra.com.tr

İstanbul by Covegrove.

Built-in shower mixer (3 way diverter)

Code: A41841EXP
Coating: Chrome, Gold
Rosette (mm): 200x120

For gold coating option, please refer to price list or vitra.com.tr

Built-in shower mixer

Code: A41803EXP
Coating: Chrome, Gold
Rosette (mm): 120x100

For gold coating option, please refer to price list or vitra.com.tr

Joystick basin mixer with pop-up

Code: A41823EXP
Coating: Chrome, Gold
Aerator: Cache aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 108
Spout height (mm): 60
Cartridge: Joystick

For basin mixer without pop-up, gold coating and flow rate options, please refer to price list or vitra.com.tr

Joystick basin mixer

Code: A41817EXP
Coating: Chrome, Gold
Aerator: Cache aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 209
Cartridge: Joystick

For gold coating and flow rate options, please refer to price list or vitra.com.tr

Joystick built-in bidet mixer+towel holder

Code: A41818EXP
Coating: Chrome, Gold
Aerator: Swivel cache, ball joint aerator with flow regulator provides max. 8 L/min. flow rate
Length of the towel holder (mm): 410
Cartridge: Joystick

For gold coating option, please refer to price list or vitra.com.tr

Joystick built-in shower mixer with handshower (ceiling mounted)

Code: A41827EXP
Coating: Chrome
Cartridge: Joystick

Joystick bath/shower mixer with handshower (floor mounted)

Code: A41819EXP
Coating: Chrome, Gold
Aerator: Cache
Spout length (mm): 218
Spout height (mm): 608
Cartridge: Joystick

For gold coating option, please refer to price list or vitra.com.tr

Joystick bidet mixer with pop-up

Code: A41832EXP
Coating: Chrome, Gold
Aerator: Swivel cache, ball joint aerator with flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 116
Spout height (mm): 48
Cartridge: Joystick

For bidet mixer without pop-up and gold coating options, please refer to price list or vitra.com.tr

T4

T4

A totally new approach to the natural flow of water. With its pure design and functionality, the T4 series is a design for all times. The cascade and standard flow mixers are in total harmony with the washbasin, WC pan, bidet, bathtub and furniture in the series.

Basin mixer (cascade flow)

Code: A41242EXP
Coating: Chrome
Aerator: Flow regulator provides max. 8 L/min. flow rate
Spout length (mm): 130 mm
Spout height (mm): 95 mm
Cartridge: Joystick control cartridge

Basin mixer with pop-up

Code: A41237EXP
Coating: Chrome
Aerator: Auto-clean silicon aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 120
Spout height (mm): 85
Cartridge: Joystick control cartridge

For basin mixer without pop-up and flow rate options, please refer to price list or vitra.com.tr

Basin mixer with pop-up (small type)

Code: A41239EXP
Coating: Chrome
Aerator: Auto-clean silicon aerator with flow regulator provides max. 9 L/min. flow rate

MOD by Covegrove.

MOD by Lovegrove.

Lovegrove's philosophy of his contemporary design is based on the concept of "less is more". Lesser raw materials were used requiring less use of energy, saving 60% on water consumption. The MOD series brings a plain look to bathroom interiors.

Spout length (mm): 200
Spout height (mm): 280
Cartridge: Cartridge with flow rate and temperature limiter

Pure sink mixer

Code: A42089EXP
Coating: Chrome
Aerator: Silicon aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 210
Spout height (mm): 260
Cartridge: Cartridge with flow rate and temperature limiter

Ilia watertower sink mixer

Code: A40373EXP
Coating: Chrome
Aerator: Cascade aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 259
Spout height (mm): 175
Cartridge: Cartridge with flow rate and temperature limiter

Sink Mixers

Ilia watertower sink mixer

Code: A40383EXP
Coating: Chrome
Aerator: Cascade aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 180
Spout height (mm): 150
Cartridge: Cartridge with flow rate and temperature limiter

Ilia sink mixer (with pull-down spray)

Code: A42034EXP
Coating: Chrome
Spout length (mm): 190
Spout height (mm): 225
Cartridge: Cartridge with flow rate and temperature limiter

Ilia sink mixer (with pull-down spray)

Code: A42049EXP
Coating: Chrome
Spout length (mm): 190
Spout height (mm): 202
Cartridge: Cartridge with flow rate and temperature limiter

Ilia sink mixer

Code: A42043EXP
Coating: Chrome
Aerator: Cascade aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 190
Spout height (mm): 250
Cartridge: Cartridge with flow rate and temperature limiter

Ilia sink mixer (with pull-out spray)

Code: A42046EXP
Coating: Chrome
Spout length (mm): 215
Spout height (mm): 130
Cartridge: Cartridge with flow rate and temperature limiter

Matrix sink mixer

Code: A42018EXP
Coating: Chrome
Aerator: Cache aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 196
Spout height (mm): 177
Cartridge: Cartridge with flow rate and temperature limiter

Sink Mixers

Sink mixer (thermostatic)

Code: A42067EXP
Coating: Chrome
Aerator: Aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 191
Spout height (mm): 237
Cartridge: Thermostatic

Juno sink mixer

Code: A42045EXP
Coating: Chrome, Gold
Aerator: Cascade aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 191
Spout height (mm): 224

For gold coating option, please refer to price list or vitra.com.tr

Armix V3 sink mixer (with pull-out spray)

Code: A42055EXP
Coating: Chrome

Coating: Chrome
Aerator: Cache aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 150
Spout height (mm): 250
Cartridge: Cartridge with flow rate and temperature limiter

Armix V3 sink mixer

Code: A42058EXP
Coating: Chrome
Aerator: Honeycomb aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 220
Spout height (mm): 130
Cartridge: Cartridge with flow rate and temperature limiter

Ares sink mixer

Code: A42006EXP
Coating: Chrome
Aerator: Honeycomb aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 227
Spout height (mm): 128
Cartridge: Cartridge with flow rate and temperature limiter

Sink Mixers

Slope sink mixer

Code: A42064EXP
Coating: Chrome
Aerator: Honeycomb aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 230
Spout height (mm): 140
Cartridge: Cartridge with flow rate and temperature limiter

Slope sink mixer

Code: A42065EXP
Coating: Chrome
Aerator: Cache aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 225
Spout height (mm): 219
Cartridge: Cartridge with flow rate and temperature limiter

D-Line sink mixer

Code: A42076EXP
Coating: Chrome
Aerator: +/- 7° swivel aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 191
Spout height (mm): 220
Cartridge: Cartridge with flow rate and temperature limiter

C-Line sink mixer

Code: A42092EXP
Coating: Chrome
Aerator: Cache honeycomb aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 148
Spout height (mm): 256
Cartridge: 90° left-handed cartridge with flow rate and temperature limiter.

Q-Line sink mixer

Code: A42078EXP
Coating: Chrome
Aerator: Water saving aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 190
Spout height (mm): 255
Cartridge: Cartridge with flow rate and temperature limiter

Minimax S sink mixer

Code: A42091EXP
Coating: Chrome
Aerator: Cache honeycomb aerator with flow regulator provides max. 9 L/min. flow rate
Spout length (mm): 189
Spout height (mm): 260
Cartridge: Cartridge with flow rate and temperature limiter

Sink Mixers

Minimax S sink mixer (wall mounted)

Code: A42095EXP
Coating: Chrome
Aerator: Cache honeycomb aerator with flow regulator provides max. 9 L/min. flow rate

Complementary Products

VitrA's complementary products are not only functional, but also add value to the place and the lives of its users. A minimalist ambiance is attained with the built-in stop valve connections embedded in the walls. The filter in the interval tap can be cleaned without cutting off the water supply. Based on expectations and desires, a variety of solutions are available to users with a wide range of taps in a variety of sizes, water flow diverter systems, traps and waste sets.

Style X shower set

Code: A45538EXP
Coating: Chrome
Rail length (mm): 550
Chroma-tech shower hose length (mm): 1,750

Shower Sets

Pure shower set

Code: A45544EXP
Coating: Chrome
Rail length (mm): 550
Chroma-tech shower hose length (mm): 1,750

Sense shower set

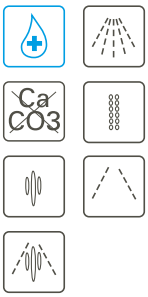
Code: A45546EXP
Coating: Chrome
Rail length (mm): 550
Extensible shower hose length (mm): 1,750-2,250

Samba 5F shower set

Code: A45482EXP
Coating: Chrome
Rail length (mm): 580
Chroma-tech shower hose length (mm): 1,750

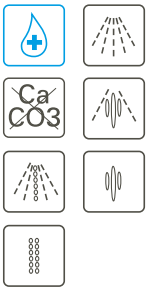
Theraphy 5F shower set

Code: A45512EXP
Coating: Chrome
Rail length (mm): 680
Extensible shower hose length (mm): 1,750-2,250



Cozy 5F shower set

Code: A45513EXP
Coating: Chrome
Rail length (mm): 680
Extensible shower hose length (mm): 1,750-2,250



Samba 3F shower set

Code: A45495EXP
Coating: Chrome
Rail length (mm): 550
Extensible shower hose length (mm): 1,750-2,250

Shower Sets

Harmony 5F shower set

Code: A45511EXP
Coating: Chrome
Rail length (mm): 680
Extensible shower hose length (mm): 1,750-2,250

Solo C shower set

Code: A45514EXP
Coating: Chrome
Rail length (mm): 550
Shower hose length (mm): 1,750

Istanbul slide rail

Code: A48014EXP
Coating: Chrome, Gold
Rail length (mm): 580

For gold coating option, please refer to price list or vitra.com.tr

Samba slide rail

Code: A45489EXP
Coating: Chrome
Rail length (mm): 580

Shower Sets

Matrix slide rail

Code: A45441EXP
Coating: Chrome
Rail length (mm): 550

Slim slide rail

Code: A45530EXP
Coating: Chrome
Rail length (mm): 680

Aqua slide rail

Code: A45424EXP
Coating: Chrome
Rail length (mm): 550

Wall Mirrors

A wide selection of bathroom mirrors with a variety of frame options and different shapes are not only functional, but also enrich the design of the bathroom interior.

Wall mirror

Code: A44726EXP
Width (mm): 500
Height (mm): 700

Potsink wall mirror

Code: A44466EXP
Ø 500 mm

Mirror set

Code: A44034EXP
Width (mm): 600

Code: A44990EXP
Width (mm): 400
Height (mm): 600

Wall mirror

Code: A44937EXP
Width (mm): 400
Height (mm): 600

Technical Specifications

Icon legend

Saving icons

Water saving

The special aerator with flow regulator used in VitrA faucets decreases water flow from 12 L/minute to a maximum flow of 9 L/minute, resulting in a 40% savings on water consumption.

The temperature and water flow regulator cartridge allow users to set a maximum limit for flow, resulting in up to 90% savings on water consumption

Energy saving

The special cartridge with temperature regulator used in VitrA faucets allows users to set the maximum temperature of the water on the gray ring on the cartridge preventing excessive and unnecessary use of energy.

Features icons

No calc

The exclusively designed silicone aerator provides one touch cleaning of the lime buildup at the tip of the spout. The "Easy Cleaning" feature found in the shower systems ensures that lime and impurities in the water ducts are easily cleaned.

Autoclean aerator

Residuals and particles up to 0.7 mm are discharged automatically and even with heavy use, will not clog the system. It is not necessary to detach the aerator to remove the remains. Ensures smooth flow even in hard conditions.

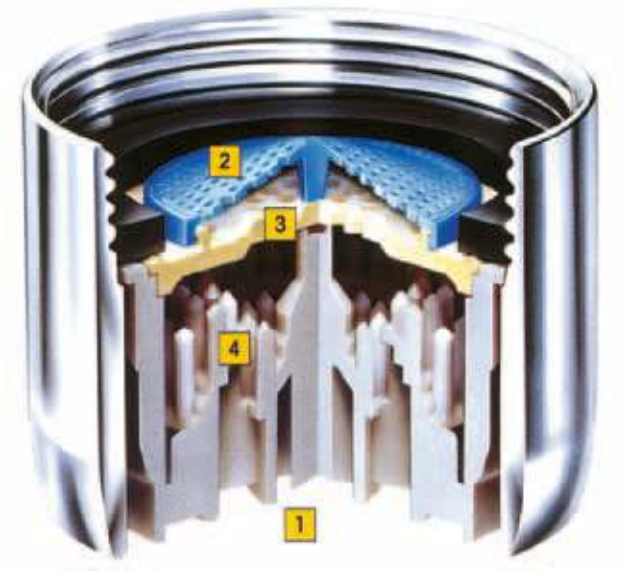
Water flow control

With a light touch, water is diverted +/-7°. Faucets are compatible with a variety of large and small washbasins because of the flow regulator feature. Water is mixed with air to ensure a smooth water flow and the flow regulator prevents water splatter.

Calibration is required during installation

In order for the product to technically operate properly, the product should be installed / calibrated by representative technical person.

Types of aerators



Cache aerator:

- Because of its exclusive design, it gives an aesthetic look to the spout.
- Cannot be seen from the exterior as it is hidden in the spout.
- Water is mixed with air to ensure smooth water flow.
- Contributes to water saving.
- Prevents water splatter.
- Prevents clogging due to lime buildup.

Cascade aerator

- Water is mixed with air to ensure smooth water flow.
- Contributes to water saving.
- Prevents clogging due to lime buildup.
- Prevents bacteria

Silicone cascade aerator

- The lime buildup on the surface of the aerator can easily be cleaned by scrubbing the silicone surface.
- Smooth flow is possible even in hard conditions.
- Water is mixed with air to ensure smooth and quiet flow.
- Contributes to water saving.
- Prevents clogging due to lime buildup
- Prevents bacteria.
- Has maximum lime resistance.

Honeycomb aerator

- Has a special honeycomb design.
- Water is mixed with air to ensure smooth water flow.
- Prevents clogging due to lime buildup.
- Contributes to water saving.

Slim (cache) aerator

- Due to its exclusive design, can be used with faucets with smaller spouts.
- Water is mixed with air to ensure smooth water flow.
- Contributes to water saving.
- Prevents water splatter.
- Prevents clogs due to lime buildup.
- Used in the bath and basin mixers in the Slope series.

Aerator for certified green building

- VitrA recommends alternative solutions for users whı want to conserve more water.
- Aerator that limits water flaw to maximum 5.7L/min is one of the innovations that VitrA introduces.
