

Liquid

VitrA
x
TOM DIXON

Expressive minimalism

Liquid is a unique collaboration between Tom Dixon and Vitra, bringing the British designer's philosophy of expressive minimalism to the bathroom.

The collection evokes a sense of permanence with soft and rounded forms in durable white porcelain. Contrast and definition is delivered via a supporting cast of solid taps, showering solutions and iconic accessories.

Expressive of function and instinctive in use, the comprehensive collection encompasses enduring ceramic silhouettes and shapely brassware and showers – an integrated system offset by harmonious furniture and a range of wall tiles.

Timelessness

Designed to stand the test of time, the Liquid collection provides the vision for the bathroom of tomorrow – defining a new standard in bathroom products for home, hospitality and commercial spaces.

The lines of Liquid are unmistakably contemporary but also call on a forgotten sense of solidity – a permanence more often associated with the ceramics and engineering heritage of the Victorian era.

Generosity

Expressive of self-care and wellbeing, the curves of Liquid's ceramics chime with robustly rounded brassware that is compellingly tactile and intuitive to use. Working in unity, the collection's generous proportions and materiality eradicate sharp edges from the bathroom.

The fact that it's all incredibly easy to clean is a practical and enduring benefit of Liquid's smooth-edged aesthetic not to be overlooked.

Liquid

Tom Dixon

A monochrome aesthetic

The bones of this collection are the all-white ceramics, offset with signature chunky brassware in either gloss black or classic chrome finish – a quintessential and timeless core aesthetic for the bathroom.

However you choose to use it, Liquid is the foundation of a truly personal bathroom.

Creativity in ceramics

Extending sculptural ceramics beyond the traditional realms of basins and sanitaryware, the collection includes the unusual feature of a rotund moulded ceramic stool – for use in the shower or anywhere else in the home.

Practical and slab-like ceramic countertops and shelves are an integral part of the Liquid language, while the soft-edged aesthetic also forms an expressive frame for an obround-shaped mirror with inbuilt lighting.

Tactile elegance

Liquid's brassware combines conical handles with exuberant tubular bodies. Easy to use and joyfully communicative of function, the range of taps and showers comes in two finishes: gloss black and chrome.

Ten variants of taps include wall-mounted mixers in short and long-spouted versions along with deck and built-in options in standard and tall formats. Touchless taps are available in two heights for both inset and countertop use.

Tom Dixon

Trusted materiality

Liquid's washbasins span an expressive range from discrete inset solutions to wall-hung, countertop and freestanding options.

A butler sink, obround-shaped basin and cylindrical high bowl are part of the armoury along with a wall-mounted double basin. Countertop options are designed to rest on Liquid's ultra-practical ceramic slab, and wall-hung variants can be paired with a ceramic pedestal.

A statement monoblock basin moulded as a single piece of ceramic is designed for use with wall or floor-mounted taps. In contrast, a wall-mounted basin extends the horizontal plane in a seamless integration of bowl and counter.

Tom Dixon

The supporting cast

The classic bathroom palette of black, white and chrome is complemented in Liquid's furniture options.

Under-washbasin closed storage offers a choice of scalloped stripes of Scandinavian glass or the robust stamp of perforated black metal mesh. With internal shelves of glass, the units can be floor or wall mounted. An open-storage alternative introduces contrasting lozenges of blue glass shelving oversailing a simple frame.

The collection's core palette is further extended in a choice of embossed wall tiles – offering understated tactility and infinite options for seamless personal creativity.

Tom Dixon

VitrA x TOM DIXON

Refined attraction

Tom Dixon's signature conical theme is extended to expressive showerheads and controls – either wall or ceiling mounted. An integrated hand-held showering option makes use of an innovative, easy to use magnetic connection, while a floor-mounted outdoor shower provides solutions for poolside and garden use.

Tom Dixon

Flowing silhouettes

Liquid's soft monumental forms are unapologetically celebrated in the collection's rounded sanitaryware.

All models make use of Vitra's Rim-ex rimless technology for superior hygiene performance. Bidets and WCs come in wall-hung or floor-mounted designs, and the urinal uses touchless technology.

Endless possibilities

Liquid's tile collection is an interchangeable system comprising five colours in plain tiles and four different embossed patterns.

The wall tiles in dot or linear décor can be combined in abstract tessellations across a colour palette that expands Liquid's core monochrome with grey, ecru and sage green.

Liquid

Tom Dixon

Stylised enrichment

Extending the tubular language of Liquid's brassware, a suite of accessories including a towel hook, toilet roll holder, toilet brush and double soap dispenser is available.

Liquid's accessories range is enhanced by robust and round-edged ceramic shelves in two lengths.
