# Brave simplicity

• —

Designed by Claudio Bellini in collaboration with the Vitra Design Team, Equal truly offers a bathroom with character.

As a design approach, simplicity is the human shortcut to creating equilibrium within the urban clutter; it offers harmony by welcoming diverse needs and characters, it excludes noise. Simplicity must be treated as the outcome of a brave sophistication.

# Poetic within norms

Equal represents the equilibrium between the rational and the sensual. It employs basic geometric forms obsessively shaped by simplicity, embracing at the same time natural organic forms. Through the ordered, edgy but still rounded and soft forms, Equal creates the ultimate bathroom harmony.

# Cold and warm materials

Equal celebrates basic architectural elements by exploring their fundamental possibilities. To enhance the relaxing and sensual atmosphere of the space, the collection combines cold and warm materials in the form of ceramic and wood. Black metal elements are also used as accent, to strengthen the timeless character of the collection.
